

RX9 Standalone GPS Tracker

The RX9 is the ideal solution where a hardwired power supply is not an option.

Many of the UK Police Forces use this device in covert applications. Other industries that have benefited from the versatility of this unit include; Private Investigations Sector, Covert Tracking, Asset Tracking, Cargo Tracking, Ad-hoc Tracking, Surveillance Work, Anti Theft, and Recovery Work.

This unit has the same features as the RX8 but enjoys a longer battery life.

Key Specification and Features:
